

ENVIRONMENTALLY RESPONSIBLE e-solution™ Foaming Hand Cleaner

DESCRIPTION

A hand cleaner made with no added dyes or fragrance. no phosphates, solvents, or nonylphenol ethoxylate surfactants. Readily biodegradable with no VOC's, no silicates, no chelating agents or caustics. Through a proprietary dispensing system, this product features a rich lathering foam that leaves hands clean and fresh. Produces a copius foaming lather that is gentle to even sensitive skin. Designed for maximum efficiency; reduces overall amount of product that is returned to the environment. Made from renewable resources. Though no environmental group has a criteria set for this product category, NCL believes that producing a foaming hand cleaner without harmful or objectionable ingredients will have an overall positive environmental impact. Use e-solution Foaming Hand Cleaner in: Schools, Universities, Institutions and Office Buildings.

PRODUCT FEATURES / BENEFITS

- Environmentally Responsible / Ingredients are completely biodegradable
- Made with no harsh solvents or skin irritants / Safe for building guests
- Produces a rich, copious lather / Promotes product acceptance

DIRECTIONS FOR USE

Wet hands; from the e-solution Foaming Hand Soap Dispenser, push 1 or 2 times to generate sufficient foam to wash hands. Wring hands so cleaner can remove soils from skin surface. Rinse, then dry hands with working air or towel to avoid chapping.
