

ENVIRONMENTALLY RESPONSIBLE

ENVIRONMENTALLY RESPONSIBLE Neutral Disinfectant Detergent

DESCRIPTION

Made without phosphates, solvents, harsh caustics, added dyes, fragrance or nonylphenol ethoxylate surfactants, this neutral disinfectant cleaner will provide a superior level of sanitation to areas where cross-contamination of germs is of concern, such as restrooms, locker rooms, and healthcare facilities. In order to control the spread of germs and associated diseases, this product is an integral part of the e-solution program.

Earth Sense® Neutral Disinfectant Cleaner is a hospital grade, disinfectant cleaner. This disinfectant cleaner is effective in hard waters up to 400 ppm plus 5% organic serum. An economical dilution of 2 ounces per gallon is required for effective disinfecting of inanimate, nonporous hard surfaces found in schools, animal laboratories, and all health care facilities. This dual quaternary product is also effective against the HIV-1 (AIDS virus) Hepatitis B (HBV) and Hepatitis C (HCV). Does not contain phosphates, solvents, harsh caustics or nonylphenol ethoxylate surfactants.

PRODUCT FEATURES / BENEFITS

- Neutral pH / Ideal for floor finish maintenance
- Biodegradable, phosphate free formulation / Environmentally responsible
- Cleans, disinfects & deodorizes in one operation / Multiple activity reduces maintenance time and cost
- Kills HBV, HCV and HIV-1 (AIDS virus) / Reduces danger of contamination from hard surfaces

DIRECTIONS FOR USE

APPLICATION: Remove heavy soil deposits from surface. Then thoroughly wet surface with a solution of 2 ounces of concentrate per gallon of water. The solution can be applied with a cloth, mop, sponge, or coarse spray, or soaking. Let solution remain on surface for a minimum of 10 minutes. Rinse and allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished. Prepare a fresh solution daily or more often if the solution becomes visibly dirty or diluted.

MILDEWSTATIC INSTRUCTIONS: Will effectively control the growth of mold and mildew plus the odors caused by them when applied to hard, non-porous surfaces

such as walls, floors, and table tops. Apply solution (2 ounces per gallon of water) with a cloth, mop, or sponge or coarse spray. Make sure to wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

Kills HBV, HIV-1 (AIDS virus) on precleaned environmental surfaces/ objects previously soiled with blood/body fluids in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surface/ objects likely to be soiled with blood/body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS) and Hepatitis B (HBV).

SPECIFICATIONS

Appearance	Colorless liquid
Odor	None fragrance added
pH (Concentrate)	7.3 ± 0.5
Active Ingredients	Dual Quaternary
Specific Gravity (gr/cc)	1.00 ± 0.2
Density (lbs/gal)	8.34
Upper Cloud	> 130°F
Lower Cloud	< 33°F
Flash Point	None
Phosphates	None
Biodegradable	Yes

Mildewstatic	Yes
Hard Water Stable	Yes
Pseudomonacidal	Yes
Staphylocidal	Yes
Fungicidal	Yes
Salmonellacidal	Yes
Virucidal	Yes
Deodorizing	Very Good
Disinfecting	Excellent
Cleaning	Excellent
Shelf Life	1 year minimum in original unopened container

SAFETY INFORMATION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. Corrosive. Causes irreversible eye damage. Do not get in eyes or clothing. Wear protective eyewear (goggles, face shield, or safety glasses). Avoid contact with the skin. Harmful if inhaled. Avoid breathing spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15- 20 minutes. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
