

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

| | Section 1 - Identification | |
|--|---|--|
| Product Identifier CERAMI-SHEEN Daily Ceramic Tile Cleaner | | |
| Other means of identification 2519 | | |
| Recommended use | Detergent. | |
| Recommended restrictions | For commercial and industrial use only. | |
| Manufacturer / Importer / Suppli | er / Distributor Information | |
| Company Name | Company Name National Chemical Laboratories of PA, Inc. | |
| Address | 401 N. 10th Street - Philadelphia, PA 19123 | |
| Telephone | 1 (215) 922-1200 | |
| Supplier Email | info@nclonline.com | |
| Contact | CHEM-TEL | |
| Emergency Phone | 1 (800) 255-3924 | |

Section 2 - Hazard(s) Identification

| | Classification | Category | |
|--|--|----------|--|
| Physical Hazards | Not Classified | | |
| Health Hazards | Not Classified | | |
| OSHA defined hazards | Not Classified. | | |
| Label Elements | | | |
| Hazard Symbol | None. | | |
| Signal Word | None | | |
| Hazard Statement | The mixture does not meet the criteria for classification. | | |
| Precautionary statement | | | |
| Prevention | Observe good industrial hygiene practices. | | |
| Response | Wash hands after handling. | | |
| Storage | Store away from incompatible materials. | | |
| Disposal | Dispose of waste and residues in accordance with local authority requirements. | | |
| Hazard(s) not otherwise classified (HNOC) | None known. | | |

Section 3 - Composition/Information on ingredients

Mixture

Components not listed are either non-hazardous or are below reportable limits.

Section 4 - First-aid Measures

| | Jection + - First-aid measures | | |
|--|--|--|--|
| Inhalation | Move to fresh air. Get medical attention if irritation persists. | | |
| Skin contact | Wash off with soap and water. Get medical attention if irritation persists. | | |
| Eye contact | Rinse with water. Get medical attention if irritation persists. | | |
| Ingestion | Rinse mouth. Get medical attention if irritation persists. | | |
| Most Important symptoms /effects, acute and delayed | Direct contact with eyes may cause temporary irritation. | | |
| Indication of immediate medical attention and special treatment | Treat symptomatically. | | |
| General Information | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. | | |
| Section 5 - Fire-fighting measures | | | |
| Suitable extinguishing media | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2). | | |
| Unsuitable extinguishing media | Do not use water jet as an extinguisher, as this will spread the fire. | | |
| Specific hazards arising from the chemical | During fire, gases hazardous to health may be formed. | | |
| Special protective equipment | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. | | |

SAFETY DATA SHEET

| Fire-fighting equipment /instructions | Move containers from fire area if you can do it without risk. Use water spray to keep fire-exposed containers cool. | | |
|--|---|--|--|
| General fire hazards | No unusual fire or explosion hazards noted. | | |
| Specific Methods | Use standard firefighting procedures and consider the hazards of other involved materials. | | |
| | Section 6 - Accidental release measures | | |
| Personal precautions, protective | Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS. | | |
| equipment and emergency procedures. | | | |
| Methods and materials for | SMALL SPILLAGE: Absorb spillage with suitable absorbent material. Absorb spill with vermiculite or other inert material, | | |
| containment and cleaning up | then place in a container for chemical waste. After removal flush contaminated area thoroughly with water. LARGE SPILLS: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with vermiculite or other inert material, then place in a container for chemical waste. After | | |
| Environmental precautions | Avoid discharge into drains, water courses or onto the ground. | | |
| | Section 7 - Handling and storage | | |
| Precautions for safe handling | Observe good industrial hygiene practices. | | |
| Conditions for safe storage, including any incompatibilities | Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS). | | |
| | Section 8 - Exposure control/personal protection | | |
| Occupational exposure limits | No exposure limits noted for ingredient(s). | | |
| Biological limit values | No biological exposure limits noted for the ingredient(s). | | |
| Appropriate engineering | Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to | | |
| controls conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to m | | | |
| | airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. | | |
| Individual protection measures, su | uch as personal protective equipment | | |
| Eye/face protection | If use of product risks exposure to contact, wear safety glasses with side shields. | | |
| Skin protection | | | |
| Hand protection | Impervious gloves are recommended for prolonged use. | | |
| | If use of product risk exposure to contact, wear suitable protective clothing. | | |
| Other | | | |
| Other Respiratory protection | If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required. | | |
| | In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment | | |
| Respiratory protection | In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required. | | |
| Respiratory protection Thermal hazards General hygiene | In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, | | |
| Respiratory protection Thermal hazards General hygiene considerations | In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. | | |
| Respiratory protection Thermal hazards General hygiene considerations | In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties | | |
| Respiratory protection Thermal hazards General hygiene considerations Appearance | In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. | | |
| Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state | In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. | | |
| Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor | In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Yellow. Lemon. | | |
| Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold | In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Yellow. Lemon. Not available. | | |
| Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold pH | In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required. Wear appropriate thermal protective clothing, when necessary. | | Section 10 - Stability and reactivity | | |
| Reactivity | The product is stable and non-reactive under normal conditions of use, storage and transport. | | |
| Chemical stability | Material is stable under normal conditions. | | |
| Possiblity of hazardous reactions | No dangerous reaction known under conditions of normal use. | | |
| Conditions to Avoid | Contact with incompatible materials. | | |
| Incompatible materials | Strong oxidizing agents. | | |
| Hazardous Decomposition Products | No hazardous decomposition products are known. | | |
| | Section 11 - Toxicological information | | |
| Information on likely routes of ex | | | |
| Information on likely routes of ex Ingestion | posure Expected to be a low ingestion hazard. | | |
| Inhalation | No adverse effects due to inhalation are expected. | | |
| Skin contact | No adverse effects due to skin contact are expected. | | |
| Eye contact | Direct contact with eyes may cause temporary irritation. | | |
| Symptoms related to the | Direct contact with eyes may cause temporary irritation. | | |
| physical, chemical and toxicological characteristics | | | |
| Information on toxicological effec | rts. | | |
| Acute toxicity | Not expected to be acutely toxic. | | |
| Skin corrosion/irritation | Prolonged skin contact may cause temporary irritation. | | |
| Serious eye damage/ eye irritation | Direct contact with eyes may cause temporary irritation. | | |
| Respiratory sensitization | This product is not expected to cause respiratory sensitization. | | |
| Skin sensitization | This product is not expected to cause skin sensitization. | | |
| Germ cell mutagenicity | No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic. | | |
| Carcinogenicity | This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. | | |
| Reproductive toxicity | This product is not expected to cause reproductive or developmental effects. | | |
| Specific target organ toxicity - | Not classified. | | |
| single exposure | | | |
| Specific target organ toxicity - | Not classified. | | |
| repeated exposure | | | |
| Aspiration hazard | Not classified. | | |
| | Section 12 - Ecological Information | | |
| Ecotoxicity | The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. | | |
| Persistence and degradability | No data is available on the degradability of this product. | | |
| Bioaccumulative potential | No data available. | | |
| Mobility in soil | No data available. | | |
| Mobility in general | No data available. | | |
| Other adverse effects | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. | | |
| | Section 13 - Disposal considerations | | |
| Disposal instructions | Dispose in accordance with applicable federal, state, and local regulations. | | |
| Local disposal regulations | Dispose of in accordance with local regulations. | | |
| Hazardous waste code | Waste codes should be assigned by the user based on the application for which the product was used. | | |
| Waste from residues / unused | Dispose in accordance with all applicable regulations. | | |
| products | | | |
