

SHIELD

Nano Molecular Coating & Enhancer

Superior Results For Granite, Porcelain & Ceramic Tile!

Shield Nano Molecular Coating & Enhancer has been engineered by NCL's world class chemists, specializing in surface care and surface protection.

Shield uses advanced Nano Molecular materials and proprietary ingredients to produce a high gloss, invisible protective coating. Shield is used on granite, ceramic, porcelain and other hard surfaces.

- Improves Surface Slip Resistance
- Prevents Staining
- Removes Scratches
- Enhances Surface Color
- Increases Gloss
- Creates a Protective Layer
