DISPENSING DIRECTIONS:

Attach READY-SET-CLEAN® (RSC) Dispensing Unit to the bottle by threading the unit onto the bottle and tighten securely. Attach water hose to the gun and dispense product by squeezing the flow control handle. Use the locking switch if desired for “hands free” filling of buckets and automatic scrubbers.

NOTE: The READY-SET-CLEAN® Dispensing Unit is designed for use with any and all RSC products. Dilution tips built into the product containers provide precise, accurate dilution for every product, every time.

DIRECTIONS FOR USE:

FOR SPRAY & WIPE APPLICATIONS:

Dispense Earth Sense® Washroom Cleaner solution from the READY-SET-CLEAN® dispensing unit into a spray bottle at a dilution rate of 1:20 (6.5 oz per gallon) with the appropriate Ready-to-Use label affixed and tighten trigger sprayer. Use cold tap water only. For toilet bowls, apply diluted solution under water rim and allow to flow into water basin. After 10 minutes, agitate with bowl brush, the flush away. For general restroom cleaning, apply to surface and agitate to loosen soil with a clean cloth, sponge, or brush. Rinse with clear water.

FOR MOP & BUCKET /

AUTOSCRUBBING APPLICATIONS:

Dispense Earth Sense® Washroom Cleaner solution from the READY-SET-CLEAN® dispensing unit into a mop bucket or automatic scrubber at a dilution rate of 1:20 (6.5 oz per gallon). Use cold tap water only. Mop diluted solution onto floor. Allow solution to dwell on surface for 5-10 minutes. Agitate solution as required with mop or with floor machine and pad. Remove solution from floor with mop and bucket or wet dry vacuum.

NOTE: Improper use or dilution may cause damage to surfaces and may increase the risk of health effects.

DISPOSE OF UNUSED PRODUCT IN ACCORDANCE WITH LOCAL, STATE AND FEDERAL REGULATIONS - PLEASE RECYCLE CONTAINER

PPE INFORMATION: Respiratory protection is generally not required. No special ventilation is normally required. The use of safety glasses is recommended. No other protective equipment is required.
