DISPENSING DIRECTIONS:

Attach READY-SET-CLEAN® (RSC) Dispensing Unit to the bottle by threading the unit onto the bottle and tighten securely. Attach water hose to the gun and dispense product by squeezing the flow control handle. Use the locking switch if desired for “hands free” filling of buckets and automatic scrubbers.

NOTE: The READY-SET-CLEAN® Dispensing Unit is designed for use with any and all RSC products. Dilution tips built into the product containers provide precise, accurate dilution for every product, every time.

DIRECTIONS FOR USE:

FOR SPRAY & WIPE CLEANING

APPLICATIONS: Fill a properly labeled quart container with HEAVY DUTY SPRAY CLEANER/DEGREASER solution from the READY-SET-CLEAN® Dispensing Unit at a dilution rate of 1:64 (2 oz per gallon) and tighten trigger sprayer. Use cold tap water only. Apply cleaner solution directly onto the surface to be cleaned. Allow solution to penetrate grease and soils. If needed, brush with a stiff bristle brush. Rinse if necessary.

NOTE: Improper use or dilution may cause damage to surfaces and may increase the risk of health effects.

DISPOSE OF UNUSED PRODUCT IN ACCORDANCE WITH LOCAL, STATE AND FEDERAL REGULATIONS - PLEASE RECYCLE CONTAINER

PPE INFORMATION: Respiratory protection is generally not required. No special ventilation is normally required. The use of safety glasses is recommended. No other protective equipment is required.
