## DISPENSING DIRECTIONS:

Attach READY-SET-CLEAN® (RSC) Dispensing Unit to the bottle by threading the unit onto the bottle and tighten securely. Attach water hose to the gun and dispense product by squeezing the flow control handle. Use the locking switch if desired for "hands free" filling of buckets and automatic scrubbers.

**NOTE:** The READY-SET-CLEAN® Dispensing Unit is designed for use with any and all RSC products. Dilution tips built into the product containers provide precise, accurate dilution for every product, every time.

## DIRECTIONS FOR USE:

Dispense MALODOR COUNTERACTANT solution from the READY-SET-CLEAN® Dispensing Unit into a sprayer, mop bucket or automatic scrubber at a dilution rate of 1:32 (4 oz per gallon). Use cold tap water only. **For Spraying Applications:** Use as a space spray in indoor areas or outdoors on garbage, industrial wastes, incinerators, kennels, sewage lagoons, sludge beds and other areas where odors are a problem. **Additive for Cleaners:** Add diluted deodorizer to cleaning solutions or to laundry. Provides immediate and long term control of malodors on floors, carpets, upholstery, furniture, cars, clothing, bedding, etc without staining.

**NOTE:** Improper use or dilution may cause damage to surfaces and may increase the risk of health effects.

**DISPOSE OF UNUSED PRODUCT IN ACCORDANCE WITH LOCAL, STATE AND FEDERAL REGULATIONS - PLEASE RECYCLE CONTAINER**

PPE INFORMATION: Respiratory protection is generally not required. No special ventilation is normally required. The use of safety glasses is recommended. No other protective equipment is required.
