

DUAL-BLEND®

CHEMICAL MANAGEMENT SYSTEM

NEW! **DUAL BLEND® #26**
LVT Cleaner / Re-Juvenator

A highly concentrated, pH neutral “ultra-wetting” formula for routine, safe, cleaning of luxury vinyl tile (LVT), linoleum, no-wax flooring and synthetic floors. This product prevents chemical damage and offers high performance to work on both flat and embossed surfaces. This unique “ultra-wetting” formula quickly penetrates dirt, soils, etc. on the floor surface. DUAL-BLEND® #26 LVT Cleaner and Re-Juvenator is low-foaming and is recommended for use manually with a mop and bucket or with automatic scrubbers.

Dilution Ratio: 1:128 **Yield:** 80 gallons per bottle

- Neutral pH Formula
- Cleans without damaging the surface
- Easy rinsing
- Dries streak free
- “Ultra-wetting”
- Fast, deep penetration for a cleaner, brighter more lively surface

SPECIFICATIONS

Appearance	Clear, White, Liquid
Odor	Pleasant (Sienna™)
pH.....	7 - 8
Flash Point.....	> 212.0 °F (> 100.0 °C)
DUAL-BLEND® Dilution Ratio	1:128
Melting point/freezing point.....	Not available
Initial boiling point & boiling range	212 °F (100 °C)
Evaporation rate	Not available
Flammability (solid, gas)	Not applicable
Vapor pressure	Similar to water
Vapor density	Similar to water
Relative Density.....	1.01 ± 0.01
Relative density temperature	75 °F (23.9 °C)
Solubilities (water)	100 % Soluble
